Quantum Studios is a Berlin-based R&D and Technical Sound Design studio, founded and run by Tiago Morais Morgado, a versatile music professional and sound artist from Portugal. Tiago has multiple degrees in music, including classical music performance, musicology, music technology, and sonology, and has studied under renowned figures in the music industry.

With over 22 years of experience in the music industry, Tiago has worked with some of the most prominent improvisers and performed his music in various countries and venues. In addition to his performance career, Tiago is also the founder of Nachtstuck Records, a record label that supports small-scale philanthropic contributions.

As a Technical Sound Designer, Tiago has advanced skills in sound recording, editing, mixing, and mastering, and is proficient in various software tools such as Ableton, Puredata, Csound, MaxMSP, and more. He also has basic knowledge of programming languages, game engines, and visual software tools, and can work with Arduino and Raspberry Pi.

Quantum Studios is currently seeking opportunities for unpaid/paid/contract/revenue share projects, and if the project generates over $5k in income, they pledge to donate 20-30% of the revenue to a philanthropic cause of their choice.

To get in touch with Tiago and learn more about his work, you can reach him at selfdeterminedhermit [at] gmail [dot] com.
